

Breathing Easier...

*-A Look at Pediatric Respiratory
Emergencies-*

Wednesday December 6, 2017
19:00 to 20:30 hours

Presented by...

Avram Flamm, DO

Department of Emergency Medicine
WellSpan York Hospital

A child in severe respiratory distress is a nerve-wracking call for many EMS providers. It is essential to maintain composure and quickly establish trust with the child and parents so a full assessment can be made. Rapidly considering the underlying cause of the distress, and selecting an effective treatment will provide the best possible care for the child.

PA DOH, Bureau of EMS, class numbers (001692). *(BLS & ALS providers, 1.5 hour of Med/Trauma ConEd credit)*

The class will be held in the Training Center Classroom located at 50 N. Harrison Street (building to the rear of 54 N. Harrison Street, York PA 17403)
